Stock up package thermal breaks / thermal separators

April 25, 2025

Smart and energy-efficient construction: Stock up on thermal breaks (thermal separators, very low thermal conductivity, high compression strength, non-combustible,) and use them gradually. They'll be readily available right away for your projects.

At the time, you can cut them to size or drill holes yourself in your shop (easy to work with, similar to steel).

Our offer: battens 1200mm x 80mm x 15mm, incl. Transportation to place in the Greater Toronto Area, incl. import tax. 60 pieces USD 3923.90 / 240 pieces USD 9702.70 / 600 pieces USD 18503.75, Valid until August 31, 2025 (changes of tariffs are subject of price change).

Interested? Contact us: info@mostdefined.com, or tel. 0041 79 914 59 27 and mention: "stock up"

P.S. Ask for different materials, or diff. amounts, or diff. shapes and sizes or diff. location.

High compression thermal separators; great energy efficiency, fighting mold and mildew, professional

Be responsible, build wise!
